

Sigtronics Ring Bypass Cable

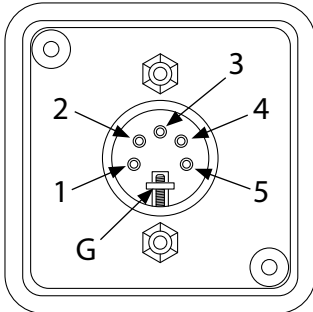

**Models: P/N 900109 15 ft.
P/N 900109S 25 ft.**

Ring Bypass Cable

When collector rings are not available at aerial turntable for intercom system wiring, our Ring Bypass Cable will provide connection from apparatus body to turntable, bypassing collector rings. It will allow for a jack and push-to-talk switch at the turntable and a jack at ladder tip. Use the table below to note the Function you assign to each Pin number.

Panel Jack Rear View

| Pin | Function | Notes |
|-----|----------|-------|
| 1 | | |
| 2 | | |
